

Dr. John W. Devlin is a professor of pharmacy at Northeastern University, and a critical care pharmacist and research scientist in the Division of Pulmonary and Critical Care Medicine at Brigham and Women's Hospital, Boston, MA. His federally-funded research program, focused on the detection, prevention and treatment of delirium and disrupted sleep in the ICU has generated more than \$3 million in funding and greater than 200 publications. He is a member of the editorial boards of Critical Care Medicine and Pharmacotherapy, an investigator for the NIH's Network for Investigation of Delirium: Unifying Scientists (NIDUS), a past president of the American Delirium Society, and chaired SCCM's 2018 international pain, agitation, delirium, immobility and disrupted sleep (PADIS) international clinical practice guidelines.
