

M. Elizabeth Wilcox MD PhD FRCPC

Dr. Wilcox is an Associate Professor at the University of Toronto and attending physician in the Medical-NeuroSurgical ICU at the Toronto Western Hospital. She completed medical school at the University of Calgary, internal medicine and adult critical care residencies at the University of Toronto, a Master's Degree in Health Services Research at the London School of Hygiene and Tropical Medicine, and a Doctorate of Philosophy in Medical Sciences at the University of Toronto. Her first and major area of focus has been the creation of a novel program of research in long term cognitive outcomes after critical illness. This includes completion of an innovative funded study into the long-term effects of critical illness on sleep and cognition, and creation of novel collaborative networks within the University of Toronto. Her second domain of research is the organization of critical care services, specifically evaluation of staffing models and workload strain on patient outcomes.
