Yoshiro Hayashi, MD, PhD

Director of Intensive Care Medicine,

Kameda Medical Center,

Kamogawa, Japan

This letter confirms the commitment of Outcomerea, sponsor of the Eurobact II multinational cohort study to facilitate the conduct of a secondary study of the Eurobact II cohort with the data from Japan, aiming at publishing a scientific paper.

We will provide the team led by Yoshiro Hayashi all necessary data, statistical analysis and assistance as required to achieve a successful publication.

Conduct of this study, from design to publication, including decisions on authorship will be led by Dr Yoshiro Hayashi and/or a member of his team.

Participation from Japan is important to the study and with the help of Dr Yoshiro Hayashi we hope to have a successful cohort of Japanese patients.

I have attached the study protocol and I am available to answer any questions you may have.

Best regards

Alexis Tabah
